

UNIVERSAL TEST BENCH EDX611D AND ACCESSORIES

The test bench EDX611D joined with our specific equipment (Accounted separately), is suitable for testing any type of diesel injection systems, from conventional models to the ones of latest generation.

CHARACTERISTICS

- Power: 15 CV (11 kW)
- Voltage: electric engine 380 V
- Totem: digital delivery metering instrument
- Pneumatic brake
- 0-4000 rpm
- Rotation Right-Left
- Interaxis: 125 mm (Bosch standard)
- Oil test cooling with water triple heat exchanger

- Thermoregulation range: 20°-60°C
- Tank capacity: 50 LT.
- Flywheel inertia: Kgm^2 0.75
- Thermometer: 0-100°C
- Supply pump:
 - Low pressure 0-6 bar
 - High pressure 0-40 bar
- Total security with polycarbonate sliding windows and external control operating console
- PC controller

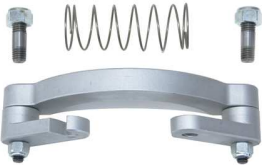

DESCRIPTION

COD.	ITEM	DESCRIPTION	COD.	ITEM	DESCRIPTION
EDX450	01	Digital delivery metering instrument		05	Operating Console
	02	Test bench feed pump control levers: - low pressure 0 - 6 bar - high pressure 0 - 40 bar Pressure adjusting knob		06	Double Monitor
	03	Test oil Tank 50 LT. with heating and triple cooling system	(1) EDX323 (2) EDX322 (3) EDX324 (4) EDX325	07	Gauges (from right to left): (1) Low pressure reading (0 ÷ 6 bar) (2) Vacuum (depression) (-1 ÷ +3 bar) (3) Transfert pression reading (0 ÷ 16 bar) (4) Fase high pressure reading (0 ÷ 60 bar)
EDX330	04	Air pressure controller with water separator	EDX150	08	Polycarbonate shelter with interchangeable right/left sliding door

**SPECIAL COUPLING ON BEARING KIT DX75112
(INCLUDED IN THE TEST BENCH KIT)**

COD.	ITEM	DESCRIPTION
		High speed drive coupling mounted on bearings
		Drive coupling security accessories
DX751138		Pinion tightening and loosening tool

COD.	ITEM	DESCRIPTION
DX75116		Pinion Ø 25
DX75117		Large size pinion Ø 20
DX75118		Small size pinion Ø 20
DX75134		Pinion for "Oldham drive" 8 mm (Bosch, Delphi, DFP3 Pumps)
